Infobank provides online access to a wide range of current legal business, political and economic information on China. It contains 14 Chinese language sub-databases and provides Traditional Chinese and Simplified Chinese interfaces for browsing and searching.

From the E-Resources tab on the library website, select Business from Databases by Subject, and then select Infobank 中國資訊行.

**Basic Search**
1. Select a sub-database;
2. Type your search term in the text box;
3. If you don’t need to add search options, press Search;
4. If appropriate, select Date Range from the Time Range option;
5. Select “All” or “Title” from the Field option;
6. Select AND, OR, NOT from Logical Operators option. To search for two or more search terms, leave a space between each term.

**Advanced Search**
The searching methods in the Advanced Search are similar to the Basic Search, with more search options to select to get the precise results.
1. Type your search term in the text box;
2. If you don’t need to add search options, press Search;
3. If appropriate, select the industry from the Industry option;
4. Select the region from the Region option;
5. Select the newspaper from the Source option;
6. Select AND, OR, NOT from Logical Operators option. To search for two or more search terms, leave a space between each term;
7. Select “All” or “Title” from the Field option;
8. Enter the start date and end date.
VIEWING YOUR SEARCH RESULTS:

Enter additional search terms in the text box and select this box to narrow down the search results.

Click on the Title to read more information of the article.
